

VOLUNTEER ASSISTANCE NEEDED!!

WWF-Pacific's Sea Turtle Conservation Project

2020-2021 Peak Nesting Months

It's that time of the year in which our sea turtles come in to nest and we'd love to have some volunteer assistance collecting data with us in the field again.

The last time we had volunteers out in the field was during the 2014-2015 season in the North but this time we need **20 Volunteers** to collect information from four divisions across our beloved Fiji.

- Surveys will be from January to March 2021 -

Our selection **criteria** will include:

- Marine or Environment educational background;
- Experience in undertaking similar field work;
- Awareness of traditional and community protocols;
- Volunteer should be able to speak and understand *iTaukei* language;
- Have some sense of humor.

So email your interests and background information to ltamata@wwfpacific.org if you'd like to help our Government safeguard our Sea Turtle Nesting Population.

Opportunity closes on the 10th of December 2020.
